Career Objective

Motivated and enthusiastic B.Tech student passionate about web development, seeking to leverage my skills and hands-on project experience to build innovative and user-friendly web applications.

Projects

Portfolio Website   *Mar 2025-Apr 2025*
Html/CSS/JavaScript

- Developed a **personal portfolio website** to showcase web development skills, featuring sections on about me, skills, and projects, designed with **HTML5**, **CSS3**, and **JavaScript** for interactivity and responsive design.
- Integrated dynamic content with interactive elements, including project links and a contact section, ensuring a **clean UI/UX design** optimized for mobile, tablet, and desktop devices.
- Deployed the website on **Netlify** for seamless live access and performance optimization, with plans for future enhancements such as a blog section and contact form integration.

SVS Restaurant   *Feb 2025- Mar2025*
Html/CSS/JavaScript

- Developed and deployed a fully responsive restaurant website using **HTML5**, **CSS3**, and **JavaScript**, ensuring seamless user experience across mobile, tablet, and desktop devices.
- Integrated interactive elements and clean design for an easy-to-navigate user interface, with the site deployed on **Netlify** for fast, public access.
- Link: [Visit Restaurant] (https://svsrestaurant.netlify.app/)

ATM Simulation Project   *Jan 2025*
Html/CSS

- Developed a **web-based ATM simulation** to replicate basic banking operations such as balance checking, withdrawals, and deposits, using **HTML**, **CSS**, and **JavaScript**.
- Implemented **login authentication**, transaction history tracking, and error handling for a secure and user-friendly experience, with a **responsive design** for mobile, tablet, and desktop.
